Programme

Two-days MTBO event.

24.08.2019 Middle distance, Hungarian Cup and Czech Cup

25.08.2019 Long distance, Hungarian Cup and Czech Cup

Terrain

Middle part of the Velence hills, 100-250 m above sea level.

Terrain may be considered having three distinctive parts:

- Open and semi open areas, mainly with granite surface. Huge granite boulders, abandoned quarries and traces of a former military training area break this surface. Riding conditions perfect in rainy weather as well, although the very steep parts offer more difficult conditions.
- Forest area with a network of tracks, mostly perfect for riding, with some additional narrow nature trails. In higher areas the tracks run on the granite surface, while the lower tracks run on loamy soil.
- From Pákozd and Sukoró the area is an extended network of good quality gravel and surfaced roads amongst cottages, vineyards and fruit orchards, with many dead ends, minor vehicle traffic.

Map

Maps are 1:15 000/5 m and 1:10 000/5 m, corrected according to IOF MTBO standards October 2015 through August 2019. The previous MTBO map used first time at the MTBO Cup 2017 covers the terrain's western part, while the newly mapped part is 8 km², making up for total 25 km².
