Terrain

The county's best orienteering sand dune terrains rich in contour details were shaped by the wind. This terrain type is very diverse but equidistance is quite small 10-20m so maps are prepared with 2m equidistance scale. Domestic vegetation in harmony with the climate is called forest steppe; large and small patches of forest interspersed with open grassy fields. High speed of runnability.

Maps

Surveyed in 2018, scale 1:10000 and 1:15000, equidistance 2m

Accommodation

In college (College Bernáth Lajos)	2500 HUF/pers/night
In gym hall	1000 HUF/pers/night

Transport

Will be organized in case of need.
