## Event Centre and Finish

Szabadszállás - Strázsa-hegy - T. Tölgyes

**GPS coordinates of EC:** N 46.887552 E 19.276054

Approaching the Event Centre from the highway between Szabadszállás and Kerekegyháza, you have to turn onto a driveable dirt road at the 28km marker. The location of the turn-off will be signed from both directions. From there the Event Centre and Finish area is 1300 metres. Once the Car Park in the vicinity of the Finish area is full, you can park on one side of the approach road. In order to maximise the parking places, please follow the instructions of the parking marshalls!

## Approach to the Event Centre

GPS: N 46.936153 E 19.475663

The gym accommodation is available between 5pm Saturday and 9am Sunday. All competitors will have to leave by 9am on Sunday the latest!

**Base time:**

Day 1.: Middle and Classic distance event	12.00 midday
Day 2.: Classic distance event	10.00am

## Starts

On Saturday there will be two Starts. S2 will be used by competitors on Open beginner (OB), Open Technical Short (OAS), Open Technical Long (OAL), Open taped, MW10DK, M10D, W10D. W70, W75, M80 classes. All other classes start from S1. On Sunday all classes will start from one common start. The route to all starts will be taped with blue and white tape, with the exception of class MW20 on Day1, when it will be white.

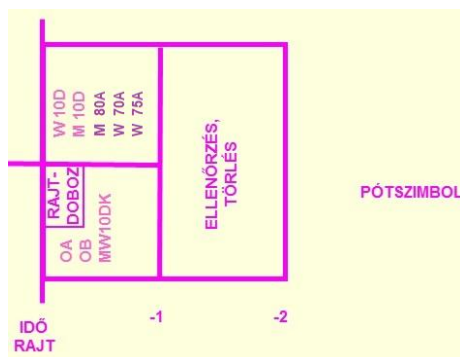

**Distance to starts:**

Day 1:	<b>Finish – S1:</b>	1500 metres
	MW20 classes will have a quarantine after 1100m which will have to be reached by 40 minutes into the starts.	
Day 1:	<b>Finish – S2:</b>	300 metres
Day 2:	<b>Finish – S1-S2:</b>	300 metres

### S2 Start:

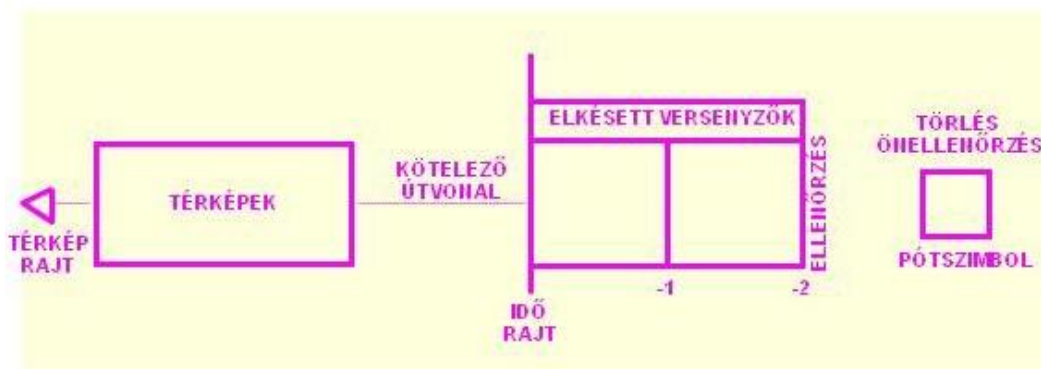

There is no specific start time for competitors in the Open and accompanied classes. You may start at any time between 30 and 120 minutes after base time.

This diagram shows the layout of S2.

### S1 Start:

Please wear your competitor number! **Please clear and check your SI chip prior to entering the start lane!** The boxes will be placed within 20 metres of the start. Entry to the start lane will be 2 minutes before your start. Late competitors will have to use a separate lane. Maps are placed between 40 and 100 metres from the start lane.

**Terrain:** The event is held in the central part of the sandy hills/dunes between the rivers Duna and Tisza lying at a height of 110-125 metres. The surface is primarily hard sand. Sand dunes formed by the wind have produced a varied relief with relatively large height differences. The vegetation cover is mostly broad leaved and coniferous forest, interspersed with semi-open areas. Occasionally thicker vegetation impedes progress. The path network is poor. **It is recommended that you wear full body cover.**

### **Map:**

Map scale on both days will be 1:10 000 with 2m contour interval, 5 colours, updated according to IOF norms, drawn in 2015, updated in 2018. All maps will be printed on pretex waterproof paper. Map pickup will be after the start whistle.

**Control descriptions and codes:** control descriptions will be placed on the maps. Spare descriptions will be available at the start. Classes, both on the map and on the control descriptions will be designated M for men and W for women.

**Electronic punching:** punching will be by your SI chip. Should the light not register your visit, please use the pin punches, placed at each control, on the edge of your map! . Control points will have scattered paper on the ground to mark any missing flags.

**Drinks:** On both days you will find drink points marked on your map.

### **Open class:**

Both pre-entered and those who entered on the day can start any time between 30 and 120 minutes of start times. Open competitors will have to adhere to a one minute interval in starting. Open competitors will be timed by punching in the Start box upon starting. Open competitors' results will be published, but there will be no combined results or result ceremonies in those classes. Complete beginners can try the „Open taped” class, which will be identical with classes MW10D.

**Lost competitors** can reach the highway between Szabadszállás and Kerekegyháza by proceeding in a NW direction from where they can turn towards the Finish, using the dirt lane at the 28km road marker. If in possession of a mobile phone, they can call the Finish on +36209494378 or +36209344232.

### **Result Ceremony**

On Day 2 at 2pm, the ceremony will be based on the combined individual results of both days. . The best Hungarian M70A competitor will be the winner of the Andor Korik memorial race.

**There will be a children's competition** organised in the vicinity of the Finish. The children's event will be run on Day 1 between 1pm and 3pm and on Day 2 between 11am and 1pm.

### **Other important information**

- The competition area has suffered storm damage in November 2017, with a large number of trees still lying on the ground. Please take care to avoid these fallen trees!
- To protect game, all dogs are banned from the competition area and will have to be kept on a lead at all times in the Finish area.
- All competitors take part in the event at their own responsibility.
- All use of open flames is prohibited. The event is a non-smoking, no campfire event, please do not light any!
- There will be a buffet operating, serving hot and cold food at the Finish.
- Please care for the condition, order and cleanliness of both the accommodation and the Event Centre!

### **Refuse**

The removal of refuse is posing an ever increasing problem for the event organisers. In order to minimise the mountains of rubbish at the end of the event, please:

- if at all possible, take your rubbish home,
- use the selective rubbish islands and push paper cups into each other,
- please empty and squash plastic bottles flat before depositing them!
