

Bulletin 2

Date, venue: 16-19. August 2018 , Tapolca and surround

Organizer: MTF SZ TrailO committee

- Event director: Mihácz Zoltán
- Course setters: Bíró Fruzsina, Fehér Ferenc, Mihácz Zoltán

Program:

- 16.08.2018 13:00 – PreO, Véndek-hegy, Ódörög
- 17.08.2018 13:00 – PreO, Diszel, Zalahaláp
- 18.08.2018 15:00 – TempO, Tapolca
- 19.08.2018 13:00 – PreO, Véndek-hegy, Ódörög

The competition is organized in parallel with the Hungária Cup Foot-O competition so that the participants have the opportunity to compete on both events.

The Saturday and Sunday events are the Hungarian part of the CHIS Cup (CRO-HUN-ITA-SLO TrailO Cup; <http://www.oktrzin-klub.si/sl/chis.html>)

Event Office:

On August 15, Wednesday, from 19:00 to 20:00 at the Central Cup of the Hungária Cup: Tapolca, Artemisz guesthouse

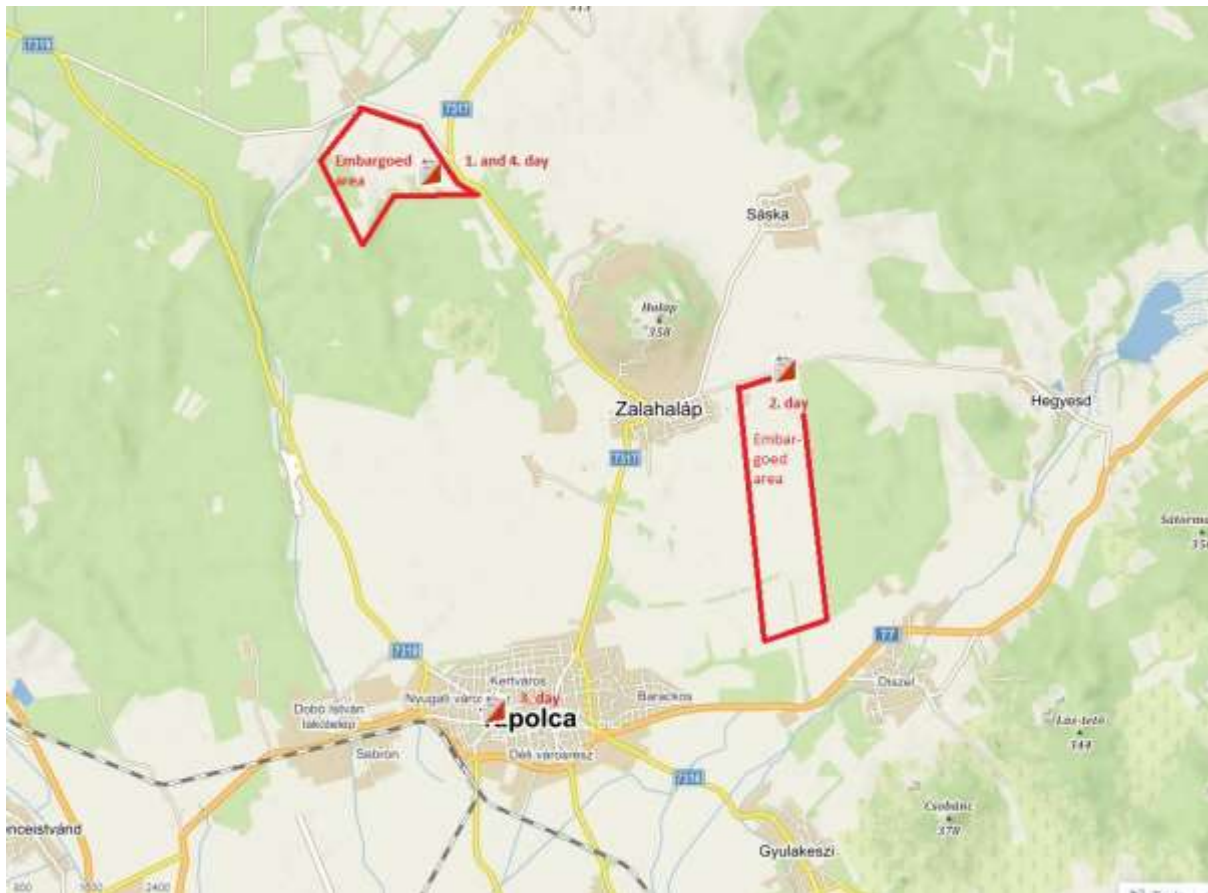

Address: 8297 Tapolca , Diszel, Vadászház 179.

GPS: 46.883657131208 | 17.487144470237

Approach: From Tapolca to the main road 77 to Diszel, 2.5 km from the end of the town sign.

Daily at the Event Center at 12:00. (3rd Day at 14:00)

Overview map

Categories:

- A – for beginners
- E – (Open, Paralympic, Junior)

Startlist:

No startlist. The specified daily start interval can be started freely.

Competitor card, timekeeping:

The daily competitor card is delivered at the chen-k-in. In the PreO races there is a puncher in the viewpoint, but competitors can use their own puncher. The PreO races are timed with a SI system. We use only the Start and finish box. SCard chip can be rented for a limited amount of 300 HUF / race fee and deposit (ID card or 30 EUR).

Official assistant:

A wheelchair competitor is an assistant recommended. Official assistants of paralympic competitors can compete in Open class. Their time limit on the course will be same as for the Paralympic class.

Calculation of total result

Based on the CHIS Cup calculation system:

PreO calculations

$$f = (RP + 1 - RS / (90 * nt)) * 100 / (nc + 1)$$

f - factor (information how competitor did with the course - 100 is the best theoretical result = all points and 0 seconds at time controls; 0 is the worst possible result = all wrong and max. time and all wrong answers at time controls ($nt * 90$))

RP - result points

RS - result seconds

nt - number of timed controls (90 is max. possible result at one time control)

nc - number of controls (without time controls)

$$P = f / f1 * 100$$

P - points for the Cup

f - factor of the competitor

f1 - factor of the winner

TempO calculations

$$f = 100 * (1 - R / (nc * 60))$$

f - factor (information how competitor did with the course - 100 is the best theoretical result = 0 seconds; 0 is the worst possible result = max. time and all wrong answers ($nc * 60$))

R - result in seconds

nc - number of controls at all stations (60 is max. possible result at each control)

$$P = f / f1 * 100$$

P - points for the Cup

f - factor of the competitor

f1 - factor of the winner

Refreshment:

In the finish water is provided.

Weather:

It is predicted that the daily peak temperature will be around 30 degrees or above. In the 1st, 2nd and 4th day PreO races, the terrain is completely open and sunny at very hot weather. Shaded areas will not be on either the course or the finish area. Fortunately, there may be some clouds, but very hot weather is expected. We ask everyone to arrange shielding (cap, shawl), sun protection and upgrade on the field.

Prize giving

Winners of the E, A and junior categories in 1st, 2nd, and 3rd day receive a yellow t-shirt. On Sunday Medals and practical prizes for the best three in each class after four days.

Jury:

- Anne Straube
- Kreso Kerestes
- Pavel Kurfürst

Participation at their own risk.

16.08.2018 – PreO – Véndek-hegy
