- OpenE:** **New advanced open category on Juniper Open event.**
All runners' dream comes true, to have a perfect course accomplished without failures in juniper labyrinth. Send entries to the OpenE category for the first day (Saturday) and have the challenge of this new course on the terrain.
Length of the course is 5 km, having lots of controls, all of them set in juniper fields. Runners need to have a mobile, with installed MapRun application. (Available on Android and iPhone) A printed map is also provided, however, the current position is also shown by the application, could help to follow the perfect route in labyrinth. SI card is not required, the mobile will track the legs and time split details.
At the venue there will be a small test course to test the MapRun application on your mobile. Downloading and installing the application will be also supported.
In case of a rainy day when the mobiles are hardly used in the terrain, the category would be changed into a conventional advanced open technical category, supported by a printed map and SI card.
Prize giving ceremony held in Saturday, at 15 pm, with presents.
