**TEREP, TÉRKÉP** | The competition will take place on the terrain of **WMOC 2021 middle distance, extended with additional parts.**

This is a moderately hilly area between 150-240 m asl with many erosion features (spurs and small re-entrants) and man-made pits. It consists mostly of open areas with irregular thickets and bushes with some green forest in the valleys between the open areas. There are some gullies and steep earth banks on the side of the valleys. Thickets in the open areas are mostly thorn and passing through dark green is virtually impossible. There is some ground vegetation in the forested areas, but only a little in the open areas.

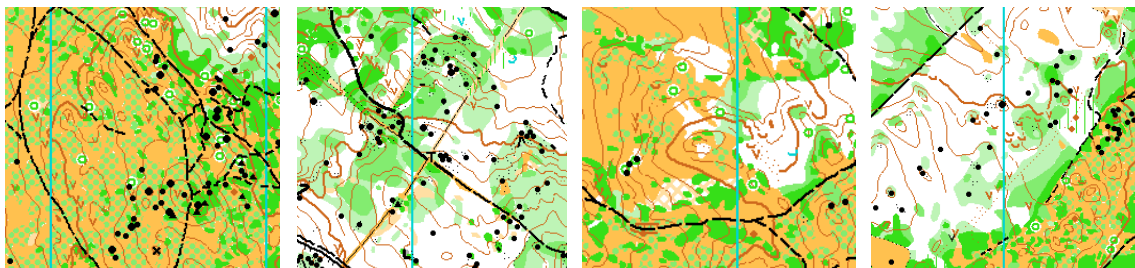

There are granite boulders and cliffs in the terrain and open areas have a hard granite surface. Firm ground, no marshes. Runnability is excellent in most places but limited in the green / forested areas. Varying visibility, even in the open areas. Low track density.

There are plenty of rabbit burrows (holes) in the terrain, which are not marked. Watch out to prevent a sprained ankle!

Map surveyed in 2021-2022

Scale: 1:7 500 for categories M/W65-80, 1:10 000 for all other categories
