

Dunántúl kupa 2022
Háromnapos nemzetközi tájékozódási futóverseny
2022. évi Hosszútávú bajnokság felkészülési versenye
2022. július 22-24.
Kislőd, Városlőd

Welcome

Esteemed Orienteers, Dear Guests,

It is a great honour for us to welcome the participants, their accompanying family members, friends and those interested in the competition to the Dunántúl Trophy and to the Tüskés Endre Memorial therein in 2021. The majority of the participants of our previous competitions left satisfied, we do hope that this will be the case also this time. The four races offer the possibility of a combined result on one hand, while obtaining impressions on the terrain of the upcoming Long Distance National championship on the other hand. We are glad that we were able to find terrains so far barely or not at all known to orienteers. These areas offer interesting new experience to the competitors, yet they are excellent for hiking for those who are interested in events other than orienteering.

We are grateful to our patrons and supporters for their cooperation and assistance in organizing this event.

We wish to all runners enjoyable and successful competitions and a pleasant pastime beside the races. For that latter the Bakony Adventure Park offers an excellent opportunity. We do hope that after your stay here you will return home with pleasant experiences and please, remember that we count on your participation in our upcoming events. Everyone is most welcome.
