**You can access the arena from 3 directions.** (With large bus, please use the 1<sup>st</sup> one!)

1. To get to the arena, leave **Pusztavám** on Erdő sor (street) heading SE, then turn left near the Vérteserdő Zrt plant. From the junction, the arena is 3.2 km, and orange and white control flags will also show the way.
2. **Oroszlány** – Pusztavámi utca – Gerencsértér – arena route. This route will not be marked.
3. **Csákvár** – Terv út – Oroszlánkő – arena route. On the main road connecting Csákvár with Oroszlány (in the direction of Oroszlány) after the Vérteskosma junction, approx. after 4 km, turn left into the forest onto Terv út. From the junction, the arena is 15 km, and orange and white control flags will also show the way.

**The road coming from the direction of Csákvár crosses embargoed area, anyone using this road will be disqualified.**

**The three potential access routes have been marked on a map for better understanding:**

<https://www.google.com/maps/d/u/0/edit?mid=10pqrK7lh8aOCD1adK8Od3pjkElgrEfU&usp=sharing>

Please note that although the forest roads are asphalted, there are large potholes on them. Please expect slower traffic and drive carefully!

**The arena from the parking area is between 100-1500 metres. Please plan your arrival with this in mind!**

**ENTRY ON THE DAY,  
EVENT OFFICE**

On Saturday between 8:00–10:00, and on Sunday between 9:00–10:00 in the arena.

There is no need to go to the event office, if the entry fee has already been paid and there are no rented SI-cards to collect. Any other admin related quires should be done in the [E-nevezés](#) system (including SI-card number changes, team entries, new entries in non-championship categories for empty start times, invoice requests, etc.)!

**There will be no bib numbers** on any of the races, so there is no need to ask for them in the event office!

The [E-nevezés](#) system will be open until 10 AM on Saturday. It will also reopen at 3 PM after the race and stay open until 10 AM on Sunday.

Please make your Team entries by name for the HCPC as early as possible, but by 8 PM on Saturday the latest (according to Hungarian Federation Rules). You can enter the names only via [E-nevezés](#). We recommend entering all the runners in the following days, so near the deadline you would only need to make changes.

You can change start times (in non-championship categories) in the Event Office, for 500 HUF.

If you have any difficulty or question don't hesitate to ask them in the event office tent!

**PAYMENT**

We have sent out invoices to all foreign participants in EUR (using the official daily exchange rate). Please transfer the money until 2<sup>nd</sup> November! **The early entry price is only valid if the payment arrives to our bank account by the 2nd November. If not, the late entry prices will be charged.**

We have notified those involved, and we apologize for the inconvenience!

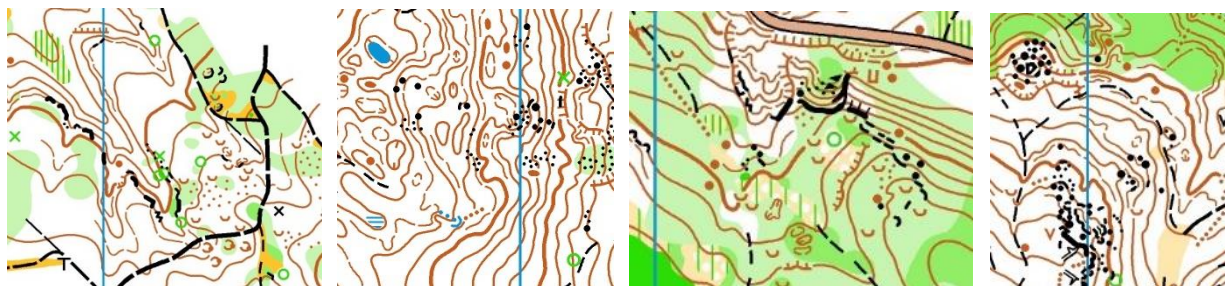

## TERRAIN, MAP

Typical Vértes hills terrain. The topography is quite detailed, the hill-sides are carved with valleys, steep and rocky in some places. Vegetation is generally well runnable, denser vegetation occurs in more closed forests, but open parts have very good runnability everywhere. Please find some samples below.

We created a new LIDAR based map for the competition.

Map surveyed in 2022.

Scales and map sizes are published in the course details table below. Contours will be at 5 metres equidistance for everyone.

- <http://rg.mtfisz.hu/cgi-bin/reitti.cgi?act=map&id=458> (2013)

Southern part:

- More recent maps can be found on the Internet under the name "Pusztavám Bánya-tavak".

## SPECIAL SYMBOLS |

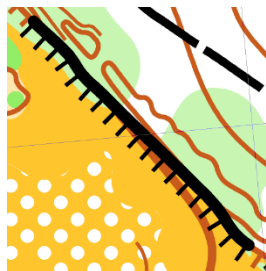

- **Tank hideout:** square shaped depression, with one end open („entrance” for tanks).

- **Lime kiln:** circular depression historically used for quick lime production, with an opening similarly to tank hideouts.

## DANGEROUS CLIFFS AND LANDMARKS |

Uncrossable cliffs on the map must not be crossed, as they are very dangerous. The example on the left is near the finish, and for this there will be red and white tape on the terrain as well. We ask everyone not to try crossing any of these cliffs!

As a result of the previous mining activity, there are also some dangerous crevices and “chimneys” on the terrain. We surround them with a red and white ribbon.

## PUNCHING |

We will use SPORTident. AIR+ will be turned on. If your SIAC did not work, you would need to punch the old-fashioned way! If the SI unit did not respond, you would need to use the manual puncher attached to the pole (punch on your map). There will be orange-white flags on the controls. You can rent SI-cards for 500 HUF and SIAC-cards for 800 HUF on the day.

## MAP COLLECTION |

**We will collect the maps right after you finish on Saturday the whole day, and on Sunday until 12:30!**

We will return the maps from 12:30 on Sunday to club representatives near the finish.

## OPEN CATEGORIES |

There will be a start list for open categories, but new entries can be made outside the empty start times (no limit on the number of entrants). There will be a separate corridor for open categories in the start.

**LIVE RESULTS** | You can also follow the results on [live.mtfisz.hu](https://live.mtfisz.hu) (needs internet connection), and there will be TV screens in the arena showing live results as well.

This is available between 9:00-15:00 on Saturday and between 9:00-14:00 on Sunday.

The event is free for everyone, and we won't have a prize giving ceremony.

- Bring your own cup/bottle, so we can give the refreshment tea in that!
- Take your waste home with you!

## HCPC & AUTUMN SPARTACUS CUP DAY 2

**FIRST START** | 10:00, 6. November 2022.

### **SPECIALTIES OF TEAM CHAMPIONSHIPS (HCPC)**

Each team consist of three runners. Team members start at the same time. All team members receive the same map. The team's race time is determined by the arrival time of the LAST member to arrive.

The start list is made similar to individual races, the teams start at equal intervals.

Depending on the category, EACH team member must punch 5-12 so called "mandatory checkpoints" in the order given on the map. Mandatory checkpoints are marked on the map with continuous capital letters (A, B, C, D, ...) and are connected to each other.

**Additional checkpoints** are marked with numbers (31, 32, 35...), these are not necessarily continuous. All of these must be punched by **ONE** team member. These **must be punched after the first and before the last mandatory checkpoint.**

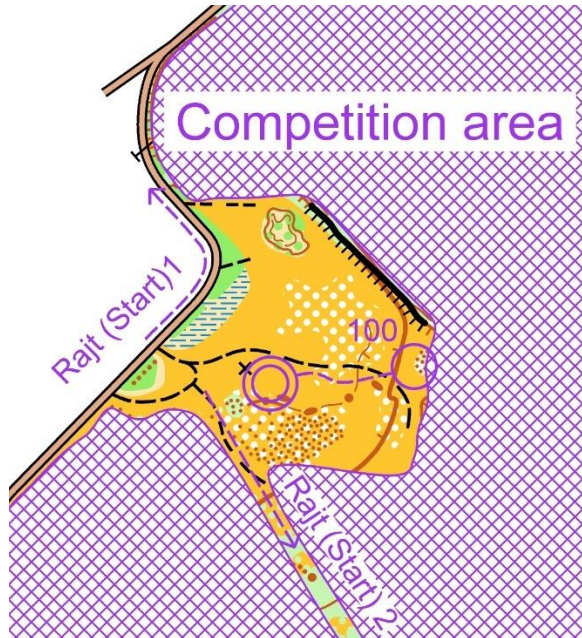

The team can decide which member collects which additional checkpoint. On the control description, mandatory points are shown separately from the additional checkpoints.

Due to the nature of the competition, there are no lose control descriptions.

The course length includes the number of mandatory points and the number of points to be distributed.
