

IV. Ladó-Rec Rogaining Cup

Rogaining event

INVITATION

Rogaining is an orienteering sport of long-distance cross country navigation involving both route planning and navigation between the checkpoints, using a variety of map types. In rogaining the length of the competition is given not in distance but in hours. Championship rogaines are usually 24 hours long, but other events can be shorter. It is a so-called scoring competition, which means that the competitors can pick what checkpoints in which order catching from that placed in the terrain. The control points are scored differently depending on level of difficulty in reaching them. Therefore, teams choose a strategy of maximizing their score. In our competition the teams formed by two members and they can perform the race by foot or by bike.
