

# IV. Ladó-Rec Rogaining Cup Balotaszállás, February 12, 2023 Rogaining event

## INFORMATION

**Rogaining** is an orienteering sport of long-distance cross country navigation involving both route planning and navigation between the checkpoints, using a variety of map types. In rogaining the length of the competition is given not in distance but in hours. Championship rogaines are usually 24 hours long, but other events can be shorter. It is a so-called scoring competition, which means that the competitors can pick what checkpoints in which order catching from that placed in the terrain. The control points are scored differently depending on level of difficulty in reaching them. Therefore, teams choose a strategy of maximizing their score. In our competition the teams formed by two members and they can perform the race by foot or by bike.

**Rules:** The pairs participating in the competition must always move together during the competition, if the team members are out of sight of each other, the team will be disqualified. The pairs use one SI card, which

will be fixed to the hand of one of the competitors. If the card removed the team will be disqualified. Both members of the pairs receive a competition map. After the number of the control points we indicate their score in parentheses, this value is also indicated in brown in the last line of the symbol. There will be an orienteering bouys with SI boxes at the control points. You can visit them in any order. For a catching a control point a score is only available for the first catch. Each started minute delay will result in a deduction of 8 points. After a delay of 20 minutes the team's result is automatically invalid. Evaluation is based on the sum of the score achieved.
