TERRAIN

Hilly area with many erosion features (spurs and small re-entrants) and a smaller number of man-made pits. Most parts have close to no stones, certain areas have many stones and medium sized rocks. The vegetation is mixed deciduous forest together with a few open areas and areas with thicker vegetation. Generally good runnability, reduced by stony and steep slopes and green areas. The visibility is very good in the open and “white” forest areas, while limited at this time of year in the green parts. Medium to high density network of paths and forest roads. There are multiple visible marks of human activity, such as hunting objects and remnants of world war era military pits and trenches.
